New Building Site

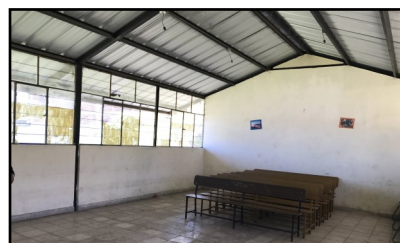

The new construction will be 10 m wide by 15 m long and fit on the steeply sloped green area adjacent to the existing building

Current Facilities

The church currently has limited space for its Compassion International-sponsored afterschool project. They can use the Community House next door, which has one large room where SIFAT teams will host VBS (*top right*) and a room used as a temporary kitchen and cafeteria (*bottom right*). The church has only one adult bathroom and two children's bathrooms (one in the daycare building and one for public use)

The Construction Plan

SIFAT teams will begin building a two-story building with a roof playground space. The first floor will have a kitchen, dining room and bathrooms, while the second floor will have an office and classrooms.
